Dear Hiring Manager,

With over a decade of experience in building scalable web applications and leading high-performing development teams, I am writing to express my strong interest in the **Development Lead** position at [Company Name]. Throughout my career, I have specialized in both **MERN and LAMP stacks**, focusing on improving system reliability, security, and team efficiency.

In my current role as a Development Lead at **Meeting Minds Experts**, I manage the design and development of complex healthcare-sector platforms and internal applications. A key achievement includes delivering a healthcare platform for over **6,000 active users** while maintaining **99.9% uptime**. I also have a proven track record of managing enterprise-level projects with user bases exceeding **30,000**, ensuring 100% on-time delivery through effective cross-functional collaboration.

My leadership style is rooted in **process optimization and technical innovation**. At Sapaad Pte Ltd, I led a team of four, where I successfully improved website uptime from **80% to 99.9%** and established smoother workflows between Design, Content, QA, and Marketing teams. My technical expertise extends to:

- **Full-Stack Development:** Expert proficiency in React, Node.js, PHP/Laravel, and various database systems like PostgreSQL and MongoDB.
- **DevOps & Automation:** Implementing **CI/CD pipelines** via GitHub Actions and leveraging **AI-driven automation (n8n)** to reduce manual work by up to 80%.
- **Security & Performance:** Hardening systems against DDoS and Brute-force attacks and optimizing site speed by 40%.
- **System Integration:** Extensive experience with REST APIs and third-party integrations such as DTCM and Eventsair.

Beyond my technical skills, I am a dedicated mentor. During my tenure at the **Google Operations Center**, I was responsible for training new joiners on best practices while consistently maintaining a **100% SLA record**. I am confident that my blend of technical depth, leadership experience, and passion for automation will allow me to drive significant value for your development team.

I have attached my CV for your review and would welcome the opportunity to discuss how my background aligns with the goals of [Company Name]. Thank you for your time and consideration.

Sincerely,

Krishna Pallapolu
